Labor Day
from A Field Guide to North American Haiku

Charles Trumbull

This installment of the Field Guide looks at an example of an Observance, which is one of the eight topics of the Japanese *saijiki*, or haiku almanac. In Japanese haiku, Observances include all manner of dates and times of the year that human beings celebrate: public and national holidays and memorials, Buddhist and Shintō festivals (as well as some Christian holy days), traditions, and death dates of famous persons. Because our Field Guide series focuses on English-language haiku, this go-around I have chosen an American holiday, Labor Day. Reference will be made to Canada’s Labor Day, which originated independently but is also observed on the first Monday in September as well as to labor holidays elsewhere in the world.

Wikipedia informs us:

Beginning in the late 19th century, as the trade union and labor movements grew, trade unionists proposed that a day be set aside to celebrate labor. “Labor Day” was promoted by the Central Labor Union and the Knights of Labor, which organized the first parade in New York City. In 1887, Oregon was the first state of the United States to make it an official public holiday. By the time it became an official federal holiday in 1894, thirty states in the United States officially celebrated Labor Day.

Over the years, however, the linkage of Labor Day to the workers’ movement has all but disappeared. In *haikai* “Labor Day” can be found more often in ironic *senryū* than in serious haiku:

1 ‘A Field Guide to North American Haiku’ is a long-term project along the lines of a haiku encyclopedia-cum-*saijiki*, a selection of the best English-language haiku arranged by topic and illustrating what it is about a given topic that attracts poets to write. When complete, the Field Guide project will comprise multiple thick volumes keyed to the several topics in traditional Japanese *saijiki* (haiku almanac) and Western counterparts, notably William J. Higginson’s *Haiku World: An International Poetry Almanac* (1996). These topics are: Season, Sky & Elements, Landscape, Plants, Animals, Human Affairs, and Observances. The current compilation presents ‘Observances: holiday: Labor Day plus, in part, May Day.’ The haiku are selected from my Haiku Database, currently containing almost 380,000 haiku. Publishing these miniature topical haiku anthologies is an experiment to test the feasibility of the larger Field Guide project. Critique and suggestions, supportive or critical, are warmly invited; please comment by e-mail to trumbullc\at\comcast.net.

For most people now, Labor Day marks the end of the summer season—
one last blast before the weather changes—much as Memorial Day is welcomed as the beginning of summer. This is thus a time of wistfulness and reflection:

If Labor Day marks the end of summer, it equally signals the beginning
of autumn. The mood is a return to serious pursuits. Beachgoers and
campers have to go back to the office rat race. In my day, too, school
started a day or two after Labor Day, both of which emphasized the swing
of the pendulum from the joyful and frivolous to the serious and even
lonely. Higginson mentions Labor Day in passing in his discussion of the
start and end of school and says it is an early autumn topic for haiku.²

Taking the longer view, autumn is the season when we begin thinking about what comes next: winter, the end of things. Preparations must be made.

Coming two months before election day in the U.S., the long weekend used to be the beginning of the political season, and in the last century political speeches an integral part of town Labor Day picnics and parades. No longer, I think—at least I find no haiku capturing that bit of vanishing Americana. Still, occasionally one can find a bit of sociopolitical commentary in a haiku:

Ruth Holzer, *Bottle Rockets* 18 (9:2, 2008), 27

Canadians also celebrate Labour Day in pretty much the same way as is done in the United States, enjoying a long weekend in the country or at the beach and reflecting on the ending summer or anticipating the fall:

In Europe and many other places May 1 is the workers' holiday. The origins of the May Day holiday lie deep in Gaelic and Wiccan (the Beltane holiday), Roman (Floralia), and Germanic (Walpurgisnacht) traditions as spring festivals typically featuring flowers, bonfires, dancing, and sweets. Such celebrations of May Day are still common worldwide. Most haiku poets writing about May Day focus on traditions such as flowers, fertility, and rebirth.

May Day carries the sense of the beginning of summer. The modern appropriation of May Day, often renamed International Worker’s Day or some such, as a celebration of labor and workers’ rights seems to be almost accidental. Wikipedia notes:

The date was chosen by a pan-national organization of socialist and communist political parties to commemorate the Haymarket affair, which occurred in Chicago on 4 May 1886. The 1904 Sixth Conference of the Second International, called on “all Social Democratic Party organisations and trade unions of all countries to demonstrate energetically on the First of May for the legal establishment of the 8-hour day, for the class demands of the proletariat, and for universal peace.”
Especially in these countries, May Day has gone beyond a celebration of labor into an occasion for patriotic parades and for state demonstrations of industrial and military prowess:

*Maiprozession —*

Martina Heinisch, translated probably by the poet,

Poets writing about this holiday must exercise caution. The term “Mayday” can also signify the international distress call, the voice equivalent of “SOS” in Morse code. Danger may be what the late Johnny Baranski had in mind in his haiku

May Day!

*Modern Haiku* 18.2 (summer 1987)

The Japanese celebrate Labor Thanksgiving Day (勤労感謝の日, *Kirō kansha no hi*) on November 23. Like the Western May Day, it lays a modern proletarian holiday over an ancient harvest festival, *Niinamesai* (新嘗祭). The emperor still performs the traditional harvest ceremonies privately in the palace by presenting the year’s newly cut grain to the Shintō gods. After World War II, Labor Thanksgiving Day was established as a secular holiday to mark the enshrinement of human rights and workers’ rights in the postwar Japanese constitution. May Day is also observed by some in Japan.

3 Curiously, this haiku was entered in the 42nd A-Bomb Day Memorial Contest (2008) in Japan with the first line ‘Way of the Cross.'
Labor Thanksgiving Day is a *kigo* for early winter, but both it and May Day (an early spring *kigo*) are used relatively rarely in Japanese haiku:

職務変更勤労感謝の日
*shoku utsuri shoku utsuri kinrō kansha no hi*

*moving from
a job to a job
Labor Thanksgiving Day*

メーデーのない日本のストライキ
*Mēde no nai Nihon no sutoraiki*

In a Japan
that has no May Day:
strike.

ガスタンクが夜の目標メーデー来る
*gasu tanku ga yoru no mokuhyō Mēde kuru*

a gas tank is
a destination for the night
May Day comes

‘Labor Day’ in its various manifestations is a popular *kigo* or season word. As effectively as ‘cicada’ or ‘autumn wind’—and rather focusing on human nature—Labor Day marks the end of the summer season and the coming of autumn
